Medical Peace Work

Welcome to the new Medical Peace Work website

Learn how war and human rights violations affect health.

Discover your special role as a health worker.

Speak out for the prevention of violence and promotion of peace.

As medical professionals we care for the life, health and wellbeing of our patients. Violence, weapons and war cause enormous suffering and misery, and endanger what is important for us.

It is therefore our professional responsibility to work towards the prevention of violence and the promotion of peace, human rights and human security.

Medical Peace Work is an emerging field of expertise in health work, violence prevention and peace building.

Medical Peace Work is a partnership of medical organizations and teaching institutions committed to the development of this new field of expertise.

Medical Peace Work is also [seven online courses](#) and a collection of [teaching resources](#) for medical peace education. You can find them here on this website.

The role of physicians and other health workers in the preservation and promotion of peace is the

Every community has the capacity to respond to life's challenges, to build a common vision, to act, and to adapt.

We call this a local response.

We stimulate and connect local responses around the world.

Konferanse i Tromsø 8. mai 2014

Helsekompetanse 2014 er konferansen for deg som er opptatt av kompetansebygging i helsesektoren. Hvordan kan nettbaserte løsninger styrke fremtidens helsetjeneste?

Påmelding

Om konferansen

Det er et helsepolitisk mål at behandling og oppfølging skal foregå nærmest mulig den som har behov for helsehjelp. Dette gjør det viktigere enn noen gang å satse på kompetansebygging.

Helsekompetanse ved NST skal for fjerde gang arrangere konferanse hvor tema er læring, deling og kompetanseutfordringer i helsesektoren.

Dette er møteplassen for helsearbeidere, ledere, brukerorganisasjoner, politikere, utdanningsinstitusjoner og kompetansemiljø som er opptatt av kompetansebygging i helsesektor
